*\* Tree nuts (cashews and almonds) are ingredients in two of our pizzas. These nuts are stored separately, used with caution and every effort is made to prevent cross-contamination. However, there may be occasions when these tree nuts come in contact with other ingredients. Customers with severe tree nut allergies are advised that this may lead to minor accidental cross-contamination. If this is a potential problem, the customer should notify the store where pizza is being ordered from so extra precautions can be taken.*
